

Tuesday, November 19

Morning

9:00-9:30 AM / Participant Welcome

9:30-10:00 AM / Inaugural Keynote by Sébastien ABIS, Researcher at IRIS and Director of the think tank Club Demeter

10:00-11:00 AM / Agricultural Upstream Roundtable

- Global Overview of Hemp Cultivation
- France: European Leader
- Opportunities and Challenges for Hemp Development Related to Machinery
- Research Prospects in Seeds/Agronomy

11:00-11:30 AM / Break

11:30 AM-12:30 PM / Fiber Valorization Roundtable

- Overview of Fiber Valorization Markets
- Valorization of Textile Fiber in China
- Example of Fiber Valorization in Composites
- Academic Knowledge on Hemp Fiber Properties

12:30-2:30 PM / Booth Pitches, Lunch, and Networking

Afternoon

You are invited to select your afternoon activity. You can either participate in the Researcher's Forum or take a tour on the theme of your choice. To help you make your choice, find more information about these activities on the next page of the program.

2:30-5:00 PM / Researchers' Forum

2:30-5:00 PM / Visits

- **Tour A** : La Chanvrière + Farm du Buzio
- **Tour B** : Farm du Buzio + La Chanvrière
- **Tour C** : Exemplary Hemp Buildings

Evening

7:30-10:30 PM / Gala Dinner at Domaine de Vermoise

Wednesday, November 20

Morning

8:30-9:00 AM / Participant Welcome

9:00-10:00 AM / New Challenges in Territorial Transitions Roundtable

- Hemp: A Cooperative Plant Par Excellence
- Reinventing a Production and Consumption Model through Hemp
- Supporting Agricultural Transitions through Hemp
- Rethinking the Organization of Our Territorial Economies

10:00-10:30 AM / Break

10:30-11:30 AM / Hemp hurd Valorization Roundtable

- Overview of Hemp in the Construction Sector
- French Normative and Regulatory Systems: An Example to Follow?
- Development of Hemp in Construction in the USA
- New Constructive Systems: Research in France and Elsewhere

11:30 AM-12:30 PM / Hemp seed Valorization Roundtable

- Global Overview of Hemp seed Valorization
- Academic Knowledge on hemp seed Properties and Technical Development Prospects
- Integration of Hemp in Cosmetics: Trend or Sustainable Fashion?
- Food Valorization of Hemp seed

12:30-2:00 PM / Booth Pitches, Lunch, and Networking

Afternoon

You are invited to select your afternoon activity. You can either plan Business meetings or take a tour on the theme of your choice. To help you make your choice, find more information about these activities on the next page of the program.

2:00-4:30 PM / Business Meetings

2:00-4:30 PM / Visits

- **Tour D** : La Chanvrière + Technology Resource Center FRD-CODEM
- **Tour E** : Technology Resource Center FRD-CODEM + Farm du Buzio
- **Tour F** : Farm du Buzio + La Chanvrière

Afternoon activities

To help you make your choice, find more information about the afternoon activities.

If you are already registered for a tour on Day 1, then your registration for a Day 2 tour will be subject to availability. An express confirmation for this Day 2 tour will be sent to you a few days before the event.

19 & 20
Novembre
2024
Troyes, France

Tuesday, November 19
2:30 to 5:00 PM

Researchers' Forum

Tour A : La Chanvrière + Farm du Buzio
Tour B : Farm du Buzio + La Chanvrière
Tour C : Exemplary Hemp Buildings

Wednesday, November 20
2:00 to 4:30 PM

Business Meetings

Tour D : La Chanvrière + FRD-CODEM
Tour E : FRD-CODEM + Farm du Buzio
Tour F : Farm du Buzio + La Chanvrière

Researcher's Forum

Meet researchers from around the world, exchange ideas, and attend research presentations related to hemp. Engaging discussions and debates will allow you to delve into the scientific and technological challenges associated with hemp.

2:30 to 5:00 PM on Tuesday, November 19

Business meetings

Take advantage of exclusive exchanges with targeted meetings among participants from various professions and backgrounds at the World Hemp Forum, opening new opportunities for your organization!

2:00 to 4:30 PM on Wednesday, November 20

La Chanvrière

Visit the production unit of La Chanvrière and discover the industrial process of the initial transformation of hemp. La Chanvrière is the leading agricultural cooperative in the production and processing of hemp in Europe. It includes 750 farmers who cultivate over 13,000 hectares of hemp within a radius of 120 km around Troyes.

2:30 to 5:00 PM on Tuesday, November 19 (Tour A or Tour B)

2:00 to 4:30 PM on Wednesday, November 20 (Tour D or Tour F)

Farm du Buzio

Come and discover the plant cultivation site and learn about the hemp farmer's profession. Hemp producers are often organized in CUMA: an Agricultural Equipment Cooperative, where farmers pool resources (machines, labor, warehouses...) necessary for their activity. It offers numerous advantages for its members, for the territories, and for innovation.

2:30 to 5:00 PM on Tuesday, November 19 (Tour A or Tour B)

2:00 to 4:30 PM on Wednesday, November 20 (Tour E or Tour F)

Exemplary Hemp Buildings

Accompanied by our expert members, come and discover exemplary buildings constructed or renovated with hempcrete. Discover the technical properties (insulation, limited carbon impact, thermal and acoustic insulation, fire resistance...) of this exceptional building material.

2:30 to 5:00 PM on Tuesday, November 19 (Tour C)

Technology Resource Center FRD-CODEM

Discover the FRD-Lab technology hall dedicated to the development of solutions based on plant fibers (flax, hemp, miscanthus, straw...). FRD-CODEM is a Technological Resource Center recognized for their expertise in creating and enhancing the value of plant-based fibers, integrating them into various industrial applications, such as automotive, construction, and textile industries.

2:00 to 4:30 PM on Wednesday, November 20 (Tour D or Tour E)
